How to Get the Most Out of Your Counselling/Therapy Sessions

by Nancy Bergeron, R.Psych. | nancy@viewpointcalgary.ca

Adapted from Dr. David Burns

We understand that therapy can sometimes be challenging

People often report that unburdening their emotions and past experiences in the first few sessions is relieving. However, therapy often uncovers deeper issues. Opening up and getting to the heart of these concerns takes patience, persistent effort, and fostering a positive relationship with your counsellor. It takes time to build a strong therapeutic bond and rapport, and this is essential in creating the trust necessary to go to those deeper places where real change takes place.

Consistency will help you reach your goals

If you wanted to improve your fitness and saw your physical trainer once every three months, you probably wouldn't be surprised when you didn't see the results you wanted. Similarly, therapy needs commitment and consistency to work through your concerns and be effective. Of course, your counsellor understands there are many demands on your time and resources. By collaborating with your counsellor, you can create a reasonable plan that balances

your commitment to your wellbeing with all your other commitments. This is also why sometimes your therapist may assign you homework or other types of activities to practice between sessions.

Providing feedback will help your counsellor know what is/isn't working for you

Counsellors strive to build positive, non-judgmental, and compassionate therapeutic relationships, understanding this is beneficial for you and the therapeutic process. Despite this emotional and professional commitment, challenges in therapy can sometimes break down open communication and hinder the process. Providing feedback allows your counsellor to understand what has happened and work to repair any concerns you may have. A great therapist will provide a feedback form that can be filled out at the end of each session. Here you can let your therapist know what you liked best in the session, what you liked the least, and if there were things you had hoped to discuss that may have been missed. This allows your therapist to constantly adjust and better hone their skills to your needs.

Mutually agreeing to end therapy when you are ready

When you and your counsellor recognize you are ready to move on, it can be exciting for both of you. In order to ensure you finish on a positive note, your counsellor will help you plan how to maintain your progress and what to do if you encounter concerns again. You have a fresh start, and your counsellor will be there in the future if needed.

Sometimes clients end therapy without talking with their counsellor, leaving their counsellor to wonder what happened. Not only can this make it more difficult for clients to maintain progress, but they may also feel they have lost a potential future support. If the counsellor can't reach the client, it also leaves the counsellor wondering what happened. Did my client feel enough progress had already been made? Did something go wrong? Did I say or do something that upset my client? Counsellors invest emotionally and professionally in the therapeutic relationship and appreciate feedback that lets them know what is happening. Your counsellor will always strive to treat you and your decisions with compassion and respect. In return, you can help your counsellor by communicating any concerns and showing that you understand they deserve compassion and respect too.

Across

3. The first Canadian-hosted Olympic games took place in this city.
4. 7-year-old Roger Woodward became the first person to survive going over these falls without a barrel.
5. The month of July is named after this Roman political figure.
9. This Canadian province experienced the hottest temperatures ever officially recorded in Canada (45 degrees Celcius) on July 5, 1937.
12. The first human to walk on the moon, which occurred on July 20, 1969.
13. This Canadian American actress, born on July 20, 1971, is best known for her role in *Grey's Anatomy*.
14. On July 5, 1946, just after World War 2, the modern version of this risqué piece of women's clothing was introduced due to the rationing of materials.
15. Filmed in Alberta, this 2022 motion picture was referred to as "Skull" during production to keep it a secret.

Down

1. *Go Set A Watchman* was the original manuscript for this classic Pulitzer Prize winning novel.
2. This iconic Coldplay album was released on July 10, 2000, and features the hit single *Yellow*.
6. In the summer of 2019, this folk horror film depicting Scandinavian paganism and starring Florence Pugh was released.
7. This Canadian artist rose to fame on YouTube and was the most Googled celebrity in July 2010.
8. National _____ Day is observed on July 31 and December 2 to raise awareness and help these dogs get adopted.
10. World _____ Day celebrates this intellectual two player board game.
11. On July 6, 1885, Louis Pasteur successfully administered this vaccination for the first time, replacing the previous treatment, mad stones.

Cute but not cuddly

Don't be fooled by these cutelings! Most wild babies just need to be left alone. Fledging birds are learning to fly while leverets (baby hares) and fawns rely on camouflage for protection while mom forages! Keep pets secure when wild young are around.

Calgary Wildlife is a registered charity and the only wildlife hospital within the City of Calgary. We promote positive wildlife-human interactions by giving educational talks at schools, community groups, and associations throughout the city.

Do you have teaching experience and a passion for wildlife? If so, we need YOU! Apply today to join our urban wildlife education team.

Stargazing with Pat J: Indoor Astronomy

by Patricia Jeffery © 2023, Calgary Centre of the Royal Astronomical Society of Canada

If you ever find yourself stuck inside due to illness or injury, freezing temperatures, or have simply reached the age where a night at home is more appealing than a night on the town, did you know you can still enjoy the majesty of the heavens without venturing beyond the comfort of your own home?

Orion nebula: through two panes of glass

Yes, I am well aware that hardcore astronomers would not recommend this approach as the multiple panes of glass will distort the image somewhat. But if the alternative is no stargazing at all, I think you'll be pleasantly surprised by what you can see while sitting next to a window. While the images won't be Hubble quality, they can still be pretty darn impressive.

Sun spots

Benefits of indoor astronomy

- Every clear night is a stargazing night
- Every clear day is a solar gazing day (Caution: you'll need a special filter for your telescope to safely observe the sun)
- No danger of frostbite (winter) or mosquito bites (summer)
- Jupiter's four largest moons are easily visible with a pair of binoculars
- Use binoculars to examine the moon at first quarter and third quarter, then use pencil and paper to sketch its surface
- Gain familiarity with the night sky with a smart phone astronomy app. Many good ones are free
- On nights when you're too stressed to sleep, instead of staring at the ceiling, try losing yourself in the serenity of the night sky
- When warmer weather returns, or recovery from your physical ailment occurs, you'll be primed and ready to pack up your astronomy gear and head outside
- Or you may discover you enjoy indoor astronomy so much that you've become a year-round convert.

Guess That Song!

1. This Grammy award winning pop song is about being foolishly apologetic for constantly playing with new lovers' hearts. Oops!
2. This thrilling hit pop song is about a woman being stalked by a beast about to strike.
3. This 2014 electro-pop song is about meeting someone in the summer, falling in love in the fall as the leaves turned brown, and then being betrayed by lies.
4. This heartfelt alternative rock ballad is all about wanting to skip right to October because summer has come and passed.
5. This country song is about going out and having fun with no inhibitions, just feeling womanly and dancing with your girlfriends on a night out.
6. This gentle pop rock song is about being so in love with someone that they colour your world and make the stars shine for you.

Proper Disposal of Smoking Materials

from the City of Calgary

Improper disposal of smoking material such as tobacco products is the leading cause of outdoor fires in Calgary. To help reduce outdoor fire risks, citizens should make an effort to properly dispose of smoking material. Remember to always call 911 to report a fire.

To Better Protect Your Homes, it is Recommended That You:

- Never put out cigarettes or smoking material in flower planters, peat moss, your lawn, or garden.
- Use a deep, wide, sturdy metal container with a lid, filled part way with sand or water that should be emptied regularly.
- Ensure that all butts and ash are out by soaking them with water prior to putting in the trash.

Smoking in Natural Areas

Extreme caution should be used in the city's natural areas and green spaces where extremely dry vegetation covering the ground provides readily combustible fuel if an ignition source is applied.

Reducing Risk

- Do not store propane tanks, firewood, or yard waste next to your house.
- Prune all tree branches within two metres of the ground and plant new trees at least three metres apart.
- Assess potential fire hazards within 1.5 metres of your home, including natural debris, trees, and other structures.

Smoke Alarms

Having working smoke alarms saves lives – more than one-third of all fire fatalities are associated with having no smoke alarm.

Cigarette Litter

Did you know that cigarette litter is a major environmental concern and contributes to a disproportionate amount of litter in our city? Contrary to popular belief, those white sponge-like butts are not made from cotton or paper — instead, they're a

synthetic microfibre that takes years to break down and are unsightly around our city.

- Cigarette filters are one of the most littered items in the world.
- Chemicals that can leach out of cigarette butts include arsenic, ammonia, and lead. The chemicals found in one cigarette butt can leach out and contaminate approximately 7.5 litres of water within one hour. This contaminated water is lethal to aquatic life.
- Sunlight will degrade a cigarette filter and break it into very small particles. These small pieces do not disappear or biodegrade but wind up in the soil or swept in water, contributing to water pollution.
- The fines for the improper disposal of cigarette litter ranges from \$250 to \$500, with a maximum fine of \$750 for throwing a butt out of a car window.

If you're a smoker, consider buying a pocket ashtray available locally and from popular online retailers.

'Bee' YardSmart

from the City of Calgary

Did you know? YardSmart yards keep our rivers healthy and help create a green and healthy city.

Visit calgary.ca/yardsmart to learn how to create a beautiful yard or green space that is easy to maintain, is suited for our city's unique climate, and needs little watering during hot and dry conditions. You can also visit calgary.ca/droughtinfo for more tips on caring for your yard during dryer times through the summer.

We Have Several Free Resources Available:

- Garden bed layouts for all areas of your yard – wet, dry, or a combination of sun and shade.
- Plant lists to help you choose beautiful and low-maintenance plants at your local garden centre.
- How-to video series, including gardening on a budget and planning a garden bed.
- Native wildflower plant lists and native meadow garden bed design.

Our YardSmart program was created in partnership with The Calgary Horticultural Society to help craft garden designs that thrive in Calgary and support our natural environment.

A Tip to Get Started:

Begin your YardSmart yard by replacing a bit of your grass with water-wise plants and greenery this summer!

PREY

July 21 marks one year since the release of the action sci-fi film, *Prey*. Filmed in Alberta and set in Comanche Nation in the 1700s, it's a prequel to the *Predator* franchise. During production, the film was called "Skull" to keep it a secret. The lead, Amber Midthunder, didn't even know she was auditioning for a *Predator* movie!

Joke of the Month

What happened when the strawberry tried to cross the road?

A traffic jam!

Heat Related Illness

from Alberta Health Services

EMS would like to remind everyone to stay safe in the heat and sun this season. While children and the elderly may be more susceptible to the effects of heat and sun, basic prevention measures should be taken by all to avoid a heat related illness during periods of hot and humid weather.

Heat Exhaustion

- Heat exhaustion can occur due to excessive fluid loss during periods of prolonged sweating in a hot and/or humid environment (indoors or outdoors).
- Patients may suffer headaches, weakness, fatigue, nausea/vomiting, thirst, chills, and profuse sweating.
- The patient is usually cold and damp to the touch and the skin may appear pale or dusky gray.

Heat Stroke

- Heat stroke is a medical emergency which, without prompt treatment, could be fatal.
- It occurs when the body can't cool itself naturally (e.g., perspiration). The body's temperature will continue to rise to dangerous levels.
- Due to severe dehydration and the inability to sweat, the patient may appear flushed, and skin may be hot and dry to the touch.

First Aid

- First aid for all heat related illness begins with removing or sheltering the patient from the hot environment.
- Remove excess, or tight-fitting clothing, and allow them to rest in a cool environment.
- If the patient is conscious and alert, provide suitable fluids such as water, juice, or a sports drink.
- If you are concerned, seek medical attention.

Prevention

- Stay well-hydrated by drinking plenty of water at all times.
- Be aware that excessive alcohol consumption will promote dehydration.
- Always wear a broad brimmed hat to keep the sun off your face and neck.

- Apply a broad spectrum, waterproof sunscreen with a minimum SPF of 30+, especially for children. The sun's UV rays peak between 11:00 am and 3:00 pm, even on cloudy days.

Moroccan Style Meatballs

by Jennifer Puri

The red (Marrakech), white (Casablanca), and blue (Chefchaouen) cities of Morocco represent a vibrant mix of past and present and are a contrast of modernity with traditional customs and architecture.

Home to ancient palaces, mosques, and colleges, these cities are also famous for their gardens, fountains, medinas, and souks.

Medinas are walled cities with narrow winding streets which are notable for their absence of cars but abundance of bicycles and donkey carts.

Souks are the captivating street markets where you can purchase leather goods, lanterns, lamps, textiles, carpets (not the flying kind), spices, tagines, and good luck charms.

All sorts of foods are also available to the hungry shopper including local breads, dried fruits, and olives.

The most cooked meals are couscous salads, spicy lamb, and chicken stews, traditionally followed by cups of Moroccan Green Mint Tea.

Moroccan Style Meatballs can be enjoyed with Pita or Naan, couscous or salad greens, or Moroccan style carrot salad.

Prep Time: 30 minutes

Cook Time: 30 minutes

Servings: 4

Ingredients:

- 500 gms lean ground beef
- ½ cup fine breadcrumbs
- ½ onion, finely chopped
- 3 garlic cloves, minced
- 3 tbsps. finely chopped mint
- 2 tpsps. smoked paprika
- 1 tsp. ginger, minced
- 1 tsp. ground cumin
- ½ tsp. ground cinnamon
- ½ tsp. salt
- ½ tsp. black pepper
- ½ tsp. red pepper flakes
- 1 egg
- 2 tbsps. olive oil
- 1 red bell pepper, sliced
- 1 400 ml jar of Moroccan style meatball sauce
- ¾ cup water
- 12 seedless green olives (optional)
- 3 tbsps. of yoghurt (optional)

Directions:

1. Place ground beef in a medium size bowl and add breadcrumbs, onion, garlic, mint, smoked paprika, ginger, cumin, cinnamon, salt, black pepper, egg, and mix well.
2. Preheat oven to 400 degrees Fahrenheit.
3. Divide beef into 20 portions, shape into golf ball size meatballs, and place on a foil lined baking tray. Bake on middle rack of oven for 18 to 20 minutes or until cooked.
4. Add two tablespoons of olive oil to a wok or skillet and sauté the red pepper for three to four minutes. Next add the Moroccan style sauce, water, and cooked meatballs, and simmer for four to five minutes.
5. Remove from heat, garnish with olives, yoghurt, and fresh mint or coriander leaves, and serve.

Bon Appétit!

Staying Healthy As We Age

from Alberta Health Services

Seniors Week in Alberta takes place the first week of June.

While we celebrate all that older adults have done for our society, let's talk about how to stay strong and healthy as we age.

Adults can start to lose muscle as early as age 30, but the loss increases quickly after age 70. Protein is a nutrient that helps you to build muscle and keep the muscles you already have. But many seniors do not get enough protein. Since your body can't store it, you need to eat protein at least three times a day, every day, to keep the muscle you have.

Often, adults tend to eat less protein at breakfast. Here are a few ways to increase your protein at breakfast:

- Have a glass of milk or fortified soy beverage with your meal.
- Add cheese or beans to toast.
- Mix one to two tablespoons of skim or whole milk powder or a scoop of protein powder into your cereal or yogurt.
- Make an omelette.

You can also try these tips:

- Add meat including wild game or poultry to pasta or vegetable dishes.
- Try a plant-based protein; for example, try chickpea falafel or tofu added to a stir-fry.
- Add canned beans or lentils to soups.
- Choose nuts, boiled eggs, Greek yogurt, or cottage cheese as a snack.

Protein alone does not build muscle. Movement helps older adults stay strong, mentally fit, and independent.

Here are some suggestions from the 24-Hour Canadian Movement Guidelines (csepguidelines.ca):

Try to get 2.5 hours (150 minutes) of moderate (example, brisk walking) to vigorous (example, cross country skiing) aerobic activity each week. You don't have to do it all at once. You can break up the time into smaller sessions of 10 minutes or more.

Engage in muscle and bone-strengthening activities at least twice a week. These activities include climbing stairs, gardening, and housework such as vacuuming or washing the floor.

Include activities that challenge your balance, such as Tai Chi or Yoga.

Limit time sitting to eight hours or less. That includes less than three hours a day of screen time (in front of a TV, computer, tablet, or phone.)

Get seven to eight hours of good-quality sleep each night.

If you would like more tips on staying strong and healthy as you age, search 'Staying Strong' at ahs.ca/NutritionWorkshops.

Hello, Ward 1!

Summer is in full swing. The long, warm days mean there is lots of time to get out and enjoy all the wonderful things that Calgary has to offer. One of those things is of course the Calgary Stampede, which is just around the corner. I am looking forward to connecting with constituents at several pancake breakfasts and community events over the 10 days of Stampede.

July is a busy month for City Council and Administration as we tie up loose ends before meetings of Council and committees resume in September. Administration is hard at work developing the 2023-2026 Service Plan and Budgets which will inform city services and taxes for the next four years. When this comes to Council in November, I'll be fighting to ensure that Calgarians see clear value for their money with more predictable property tax bills. I will keep you updated here and online as this work progresses.

The City of Calgary runs a number of free summer programs for adults, kids, and families. Find sessions for playing, learning, or staying in shape at calgary.ca/free.

The City is piloting bikes on CTrains during all operating hours until August 31. Share your feedback on this pilot at calgarytransit.com/CTrainBikePilot.

Throughout the year, The City runs public engagement on a variety of issues that affect you and your community. You can contribute your feedback and view the results of previous engagements online at engage.calgary.ca.

Sign up for the most up-to-date news on what's happening at City Hall and in your community by subscribing to my email newsletter at calgary.ca/Ward1. We always welcome your questions and comments.
