Proper Disposal of Smoking Materials

from the City of Calgary

Improper disposal of smoking material such as tobacco products is the leading cause of outdoor fires in Calgary. To help reduce outdoor fire risks, citizens should make an effort to properly dispose of smoking material. Remember to always call 911 to report a fire.

To Better Protect Your Homes, it is Recommended That You:

- Never put out cigarettes or smoking material in flower planters, peat moss, your lawn, or garden.
- Use a deep, wide, sturdy metal container with a lid, filled part way with sand or water that should be emptied regularly.
- Ensure that all butts and ash are out by soaking them with water prior to putting in the trash.

Smoking in Natural Areas

Extreme caution should be used in the city's natural areas and green spaces where extremely dry vegetation covering the ground provides readily combustible fuel if an ignition source is applied.

Reducing Risk

- Do not store propane tanks, firewood, or yard waste next to your house.
- Prune all tree branches within two metres of the ground and plant new trees at least three metres apart.
- Assess potential fire hazards within 1.5 metres of your home, including natural debris, trees, and other structures.

Smoke Alarms

Having working smoke alarms saves lives – more than one-third of all fire fatalities are associated with having no smoke alarm.

Cigarette Litter

Did you know that cigarette litter is a major environmental concern and contributes to a disproportionate amount of litter in our city? Contrary to popular belief, those white sponge-like butts are not made from cotton or paper — instead, they're a

synthetic microfibre that takes years to break down and are unsightly around our city.

- Cigarette filters are one of the most littered items in the world.
- Chemicals that can leach out of cigarette butts include arsenic, ammonia, and lead. The chemicals found in one cigarette butt can leach out and contaminate approximately 7.5 litres of water within one hour. This contaminated water is lethal to aquatic life.
- Sunlight will degrade a cigarette filter and break it into very small particles. These small pieces do not disappear or biodegrade but wind up in the soil or swept in water, contributing to water pollution.
- The fines for the improper disposal of cigarette litter ranges from \$250 to \$500, with a maximum fine of \$750 for throwing a butt out of a car window.

If you're a smoker, consider buying a pocket ashtray available locally and from popular online retailers.

Stargazing with Pat J: Indoor Astronomy

by Patricia Jeffery © 2023, Calgary Centre of the Royal Astronomical Society of Canada

Orion nebula: through two panes of glass

Sun spots

If you ever find yourself stuck inside due to illness or injury, freezing temperatures, or have simply reached the age where a night at home is more appealing than a night on the town, did you know you can still enjoy the majesty of the heavens without venturing beyond the comfort of your own home?

Yes, I am well aware that hardcore astronomers would not recommend this approach as the multiple panes of glass will distort the image somewhat. But if the alternative is no stargazing at all, I think you'll be pleasantly surprised by what you can see while sitting next to a window. While the images won't be Hubble quality, they can still be pretty darn impressive.

Benefits of indoor astronomy

- Every clear night is a stargazing night
- Every clear day is a solar gazing day (Caution: you'll need a special filter for your telescope to safely observe the sun)
- No danger of frostbite (winter) or mosquito bites (summer)
- Jupiter's four largest moons are easily visible with a pair of binoculars
- Use binoculars to examine the moon at first quarter and third quarter, then use pencil and paper to sketch its surface
- Gain familiarity with the night sky with a smart phone astronomy app. Many good ones are free
- On nights when you're too stressed to sleep, instead of staring at the ceiling, try losing yourself in the serenity of the night sky
- When warmer weather returns, or recovery from your physical ailment occurs, you'll be primed and ready to pack up your astronomy gear and head outside
- Or you may discover you enjoy indoor astronomy so much that you've become a year-round convert.

Are You Struggling with Gambling?

from Alberta Health Services

Gambling is risking money or something else of value on an activity that has an uncertain outcome. That can mean a lot of things. Playing cards or videogames for money, buying raffle tickets, betting on who's going to win a pool match, or betting your in-game video purchases or digital currency on a hockey game—it's all gambling.

People with gambling problems may also have trouble in other areas of their lives where they need support. These could include health concerns, financial problems, feeling lonely, mood swings, school issues, using digital technology too much, or, in the case of young people, school issues or conflicts with parents or guardians.

Where to get help

If you are worried that you or someone you know may be having problems with gambling, there is help available. Addiction treatment services are voluntary and confidential. For more information and to find an addiction services office near you, call the Addiction Help Line at 1-866-332-2322. Help is available 24 hours a day, seven days a week.
