## YOUR COMMUNITY ASSOCIATION

### OUR HISTORY

Chaparral was established in 1995 with a 32-acre artificial lake and a 21-acre park with two waterfalls as centerpiece of the neighbourhood and now has grown to include Lake Chaparral, Chaparral Ridge, Chaparral Ravine and Chaparral Valley.

### OUR MISSION

The Chaparral Community Association strives to represent and serve the community of Chaparral through effective communication, engaged volunteers, and fiscal responsibility, to foster a vibrant and livable community.

### OUR GOVERNANCE

We are a non-profit organization established under the societies act, and we are governed by elected and volunteer members from our community. We are always looking for expertise and support to grow, please reach out to get involved.

The Chaparral Community Association (CCA) is a volunteer run organization that represents the residents of Lake Chaparral, Chaparral Ridge, Chaparral Ravine, and Chaparral Valley. Your CCA is the recognized body that liaises with government officials, expresses resident concerns regarding commercial, industrial, and residential land use development, and represents the position of the residents on education, transportation, environmental, and infrastructure issues. The CCA supports organized sports, community, and social programs. To stay connected the CCA publishes the Chaparral Trailblazer and maintains a website ([www.chaparralcommunity.com](http://www.chaparralcommunity.com)), Facebook, and Instagram pages (@chaparralca).

Successful, healthy communities are generally those with active and sustained membership and involvement by the community residents. The CCA board encourages all residents to purchase a membership, and when available, attend monthly meetings to help make our community amazing.

Some things the CCA has done for the community include: Chaparral Common and Chapalina Crescent Playgrounds, Green Thumbs Community Garden, Community Clean-Ups, Adopt-a-Rink in the Valley, Valley Summer Bash, garbage bin wraps, Stampede kick-off breakfast (co-organized with the Lake – open to all CCA members), Festival of Lights, advocating for traffic signal lights and crosswalk Rapid Movement Flagship Beacons (RFB), Safe Communities Initiatives, and Development Permit Applications. The CCA has also weighed in on Commercial Applications (Chaparral Meadows, Bottle Depot, Telus Cell Tower, BFI Canada Inc., Inland Cement).

## The Best of Alberta's Fruit Season is Now!

*Contributed by Jolene Ottosen for the Chaparral Green Thumbs*

I know that June is strawberry season, but Alberta's best fruit, in my opinion (the Saskatoons, raspberries, and sour cherries) are at their peak about now, from late-July to mid-August. Do not miss this bounty!

In my own garden, I have had limited luck with growing my own fruit and berries. The strawberries that I planted only seemed to have one good season, and after that, the few berries I got were eaten by the birds before they got ripe enough for us, so I pulled them out to make way for other things. Raspberries also don't seem to want to grow for me, although I wonder if part of that has to do with me not being attentive enough to the new canes. About 12 years ago, I decided to put in a Saskatoon berry bush. I had enough room and hoped the area got enough light. While the bush is still with us, it has only grown about a foot or two over the years and never produced more than a handful of berries. I have not, however, given up completely on my dream of Saskatoons, and plan to someday move the bush to a sunnier locale to see if it cheers up a little more.

Thankfully, there is one fruit tree that I have had luck with, and that is the sour cherry. Since the tree was already here when we bought our home, I am not entirely sure what type it is, but I do believe it is part of the romance series developed by the University of Saskatchewan, possibly a Juliet. Although the tree was quite small when we moved in 14 years ago, it has grown considerably since then. I have been told that sour cherry trees do not sucker much as they are not a grafted variety, however, I now have several trees I did not plant, and we occasionally wrestle with large suckers in the lawn. Fortunately, we love the cherries, so while the suckers are annoying, it is worth the work. A few years ago, I noticed that part of my main tree had died off, but according to the Saskatoon Farm's website, that had been a widespread problem in Alberta that year. Thankfully, we will still have more than enough for our needs. While I don't love processing the cherries, I do love having bags of pitted fruit in the freezer that I can quickly turn into something.

While all these fruit and berries are delicious when eaten on their own, a little cooking and sweetener can further enhance their flavour. Some people like to turn their summer fruit into pies or jams, but I prefer simpler and quicker recipes like quick sauces. Summer Pudding, an English dish which is basically layers of white bread and berry sauce pressed into a dish and left to soak up all the goodness, then turned out on a plate and served with cream. Or clafoutis (pronounced kla-foo-tee) which is a simple French fruit and custard dish that is traditionally made with sweet cherries; however, I think sour cherries add another flavour dimension to the dish that makes it so much better. Other fruit can be used in place of the cherries.

If I have convinced you that you need some of this Alberta fruit in your life, and you are not lucky enough to have a garden or pasture full of them or know of any hidden backroad bushes, do not despair; there are several u-pick farms nearby. A simple Google search of "Calgary u-pick" will show you a number of farms that are just a short drive away along with prices and whether or not you can purchase pre-picked berries. Many of these farms have diversified over the years and now also offer market vegetables, baked goods, and other attractions, but the fruit will always be the star for me!

### The Spotted Lake

Located near Osoyoos, BC, Spotted Lake is a mineral-rich body of water that evaporates every summer. Calcium, magnesium, and sodium sulphate deposits are left behind in small circular pools, each a different colour. It's no wonder that this otherworldly place is sacred to the indigenous Sylix people of Okanagan!

Means a win for sellers.  
**NOW** is the time to sell!

Good quality homes are in hot demand right now. As your local real estate agent, here's why you should consider selling now:

- ✓ **High Demand for Homes like Yours**  
Highly motivated, pre-approved buyers are looking for homes in your area. I have one who's ready to move quickly.
- ✓ **Low Housing Stock**  
There are not enough homes on the market to meet the current demand. This creates buyer competition & urgency.

## Bike Safety

*A message from the Federation of Calgary Communities*

**Protect your head!** Any age – from toddlers to adults – should think twice before getting on a bike without a helmet. In fact, youth under 18 are legally required to! The helmet should fit nicely and cover the forehead. A helmet too loose won't do much protecting, so make sure it's nice and snug.

**Ring, Ring!** Having a bell lets those around you know you're coming and will help avoid any collisions on paths.

**Stop!** Being a cyclist means you must follow similar rules to driving a vehicle. Pay attention to posted signs, speed limits, and watch out for pedestrians. Knowing your route ahead of time can help you be aware of potential detours and hazards.

**Increase Your Visibility!** Use reflectors or lights, especially if you're riding your bike at nighttime or on the streets.

**Be Diligent!** You may have the right of way, but that doesn't mean those around you are paying attention to their surroundings. Always be cautious and diligent while riding a bike and stay in bike lanes where possible. Be sure to keep an eye out for vehicles coming in your direction and err on the side of caution!
